New conceptual drawings of campus

Depicted here are conceptual illustrations of the proposed lobby of the Ziegler/Hill residence hall complex (left), and an exterior view of the same building with the connecting residence hall between the current Ziegler and Hill buildings. The built-up lounges can be seen in the exterior and will contain three levels of apartments and suites. The renovations are part of President Rozanski’s Master Plan for the Lawrenceville campus with a new road system that can be viewed in the aerial illustration of campus (bottom).
